Cells in this table have been randomly adjusted to avoid the release of confidential data. No reliance should be placed on small cells.

Please note that there are small random adjustments made to all cell values to protect the confidentiality of data.

These adjustments may cause the sum of rows or columns to differ by small amounts from table totals.

Note: 'nec' stands for 'not elsewhere classified'; 'nfd' stands for 'not further defined'.

^(a) Data excludes persons who did not state their citizenship. In 2016, 6.5% of the total population did not state their citizenship status, compared to 5.5% for the 2011 Census.

^(b) Also includes 'inadequately described' and 'at sea'.

Blank cells indicate no comparable data for 2011 due to change in country of birth classification.
