Cells in this table have been randomly adjusted to avoid the release of confidential data. No reliance should be placed on small cells.

Please note that there are small random adjustments made to all cell values to protect the confidentiality of data.

These adjustments may cause the sum of rows or columns to differ by small amounts from table totals.

Note: 'nec' stands for 'not elsewhere classified'; 'nfd' stands for 'not further defined'.

^(a) Respondents have the option of providing more than one response but only the first two responses are coded. Total responses may exceed total persons
